

DEV SAHNI

Business Analyst | Revenue Analytics | Marketing Analytics

New Delhi, India | 7292067650 | devsahni03@gmail.com | linkedin.com/in/dev-sahni-39595131a | github.com/devsahni03 | devsahni03.github.io

PROFESSIONAL SUMMARY

Business Analyst skilled in SQL (multi-table joins, subqueries, aggregate functions) and Power BI (DAX-based dashboards) to convert raw operational and marketing data into decisions leadership acts on. Owns reporting end-to-end — from requirement gathering through dashboard delivery — with a track record of reducing Cost per Lead by 70%, cutting operational losses by 60%, and automating 80% of manual MIS reporting. Comfortable translating findings for founders and cross-functional stakeholders in fast-moving, resource-constrained environments.

CORE SKILLS

Business Analysis: Requirement Gathering, User Stories, Stakeholder Management, Process Improvement, KPI Design, Root Cause Analysis

Analytics: Revenue Analytics, Marketing Analytics, Sales Analytics, CRM Analytics, Funnel Analysis, Forecasting

Technical Tools: SQL (Joins, Subqueries, Aggregate Functions), Power BI (DAX), Python, Power Query, GA4, RetainCRM, Excel

PROFESSIONAL EXPERIENCE

Business Analyst – D Succeed Learners

Jan 2026 – Jul 2026

- Owned SQL-based reporting across 15+ Google and Meta Ads campaigns, using multi-table joins and aggregate functions on 800+ monthly leads to cut Cost per Lead by 70% (Rs. 2,000 to Rs. 500).
- Built the Power BI dashboard leadership used weekly to track Sales, Marketing, Conversion, Retention, and Cost per Sale — replacing ad hoc spreadsheet reporting.
- Findings directly informed campaign reallocation decisions during a period of sales growth from Rs. 10 Cr to Rs. 20 Cr.
- Automated recurring MIS reports using SQL and Power Query, cutting manual reporting effort by 80%.
- Translated business requirements into user stories and KPI frameworks, presenting directly to the Director and cross-functional teams.

Revenue & Operations Analyst (Intern) – Voorent Pvt. Ltd.

Sep 2025 – Dec 2025

- Owned Power BI reporting across Product, Sales, Marketing, Operations, Revenue, and Retention, consolidating scattered spreadsheets into one dashboard founders relied on.
- Used SQL joins and subqueries across cost and transaction data to surface inefficiencies that contributed to a 60% reduction in operational losses (Rs. 2.5L to Rs. 1L).
- Built financial forecasting and break-even models used directly in business planning and investor presentations.
- Partnered with Product, Finance, and Operations leads to convert raw data into decisions on cost structure and revenue strategy.

INDEPENDENT PROJECT

Healthcare Revenue & Operations Analytics (Public Dataset) | SQL, Power BI

- Queried and joined 70K+ encounter records using multi-table SQL joins and subqueries to analyze Rs. 112M+ in billed revenue, identifying 28% revenue leakage and a 10% claim denial rate.
- Designed an executive Power BI dashboard with DAX measures to track Revenue, Denials, Contribution Margin, and Operational KPIs — self-initiated to build revenue-cycle analytics depth beyond coursework.
- Modeled recovery scenarios to quantify the revenue impact of reducing denial rates, mirroring analysis used in real revenue-cycle teams.

LEADERSHIP

N.S.S. Secretary – N.S.S. (National Service Scheme), University of Delhi

Aug 2024 – Jun 2025

- Led operations for 90+ volunteers across 30+ community events and received formal recognition for leadership excellence.
- Built Excel-based MIS reports to track participation and engagement trends.

EDUCATION & CERTIFICATION

B.Sc. Mathematical Science (Computer Science, Statistics, Mathematics) – University of Delhi Oct 2022 – Jun 2025

Advanced Certification in Data Science & AI – IIT Roorkee
